

High-yield for Jax.Network LP Farming

What is a Liquidity Provider?

- Liquidity Provider or LP is when funds are deposited into a DEX to generate returns for the depositor. These funds are used to provide liquidity for a trading pair.
- LPs can deposit BUSD & WJXN into DEXs to provide liquidity for the BUSD/WJXN pair, which allows WJXN holders to exchange their WJXN without affecting the price too much.

Benefits for Jax.Network LPs

- In return for providing liquidity for this pair, the LP receives interest-rate-like rewards of up to 75% per year which is paid in HST denominated in BUSD.
- Rewards for LPs are provided from a reward pool set aside specifically for this liquidity farming promotional program. LPs know the exact returns as the APR is pre-set. Early LPs will receive higher rewards.
- To become a Liquidity Provider, scan the QR code provided below or follow the link here: <https://farm.jax.net/>

Assurances

- Rewards are paid out to LPs every second.
- LP tokens are locked for 120 days upon depositing into the contract, after which they can be withdrawn.
- Jax.Network LP farming contract has been fully audited by Certik.
